

SOFITEL MANSION AND SPA HOTEL

www.mansionhotel.com.au

Water Management

- Installed rain water storage tanks - total of 59,500 litres of recycled water used for irrigation
- Collected backwash water from pool, which was then used to fill pond
- Diverted rain water from roofs into pond
- Recycled water collected to use in kitchen garden
- Fitted a large percentage of rooms with water saving shower heads
- Fitted low water use toilet systems in all rooms.

Waste Management

- Separate wheelie bins used for each type of recyclable product
- Visy member introduced paper recycling bins in all of our offices.

Energy Management

- Introduced low energy and LED lights were applicable
- Non-essential plant equipment put on timer switches to reduce energy consumption.

Programs currently participating in

- City West Water MAP
- AHA Green Accredited

Projects to be completed

- Install check metre on the fire sprinkler booster pump
- Investigate pressure reduction projects.
