

SOFITEL MELBOURNE ON COLLINS

www.sofitelmelbourne.com.au

Water Management

- Gemflow water restrictors
- Water restricting shower heads
- Fountains are disconnected
- Dishwashers have been replaced with more economic types
- Censor flush on urinals.

Waste Management

- Organic waste collection has been trialled in function kitchens
- Fluoro tubes and dichroic globes are recycled
- Oil is collected and re-used through filtration
- Co-mingle and paper recycling take place.

Energy Management

- Energy efficient light globes are used where possible
- Energy audits by external companies are conducted
- The Hotel participated in Earth Hour
- Dyson hand dryers are installed for energy efficiency.

Strategies Implemented

Sofitel Melbourne On Collins is currently working on implementing an Environmental Management System (EMS).

Projects to be completed

There are several refurbishment projects underway which will incorporate green initiatives.
