

Happy Medium Photo Co

Happy Medium Photo Co can cater for all photographic requirements for social functions such as charity and gala balls, award ceremonies, conference photography as well as corporate events.

With over 30 years experience and our state-of-the-art in-house processing lab, combined with a large group of experienced professional photographers, will ensure that you get the highest quality service. Our staff will work in conjunction with you to design a suitable package to meet your needs.

We specialise in same night service which carries the benefit of having absolutely no costs to the event organisers. We ensure coverage of the entire event including all the guests and any other proceedings you would like. All the images taken on the night are returned to the venue and offered for sale to the guests on a 'no obligation to buy' basis.

All photographs will include our custom designed, digitally enhanced border, which will incorporate the title, logo and theme of the function.
