## Testimonials

"Congratulations for a job well done! For us, on the committee, it was a major undertaking especially as organising conferences is not our primary job. From my perspective we could not have done any better in terms of selection. It was a pleasure working with you, and I could not commend ICMS Australasia highly enough for the professionalism and performance of all team members."

**Dr Renald Portelli, Congress Chairman  
Australian Society of Anaesthetists 69th National Scientific Congress,  
Melbourne 2010**

"I would like to take this opportunity to express my appreciation to you, Emma, your team, and everyone at ICMS Australasia for your invaluable contributions to helping us convene the successful 63rd United Nations DPI/NGO Conference in Melbourne, 2010. Your meticulous attention to detail, professional management and quick assistance made the Secretariat's work easier, the event memorable and the participants' experience most enjoyable.

"More than 1700 representatives from 260 NGOs and 70 countries, as well as representatives of academia, media, the UN system and Member States participated in the Conference. This gathering was the largest UN event ever held in Australia, and your contribution was a major success to that."

**Maria-Luisa Chavez  
Chief, NGO Relations, Outreach Division, Department of Public Information,  
United Nations**

"The Royal College of Pathologists engaged ICMS Australasia for our annual scientific meeting in Melbourne in 2010. The team exceeded my expectations. They never needed to be instructed and used their own initiative with all parts of the conference. The customer service and knowledge of working with highly trained scientific and academic professional delegates is exceptional.

"I would only recommend ICMS Australasia as your Professional Conference Organiser."

**Eve Propper  
Events Manager, Royal College of Pathologists Australia**

## Company Profile

Established in 1966, ICMS Australasia (ICMSA) specialises in serving its clients professionally to achieve agreed outcomes.
